Infrastructure Investments

Cut Knife – Turtleford

- We are replacing the roof of Glaslyn Central School.
- Through the MRIF we are contributing \$250,000 to rehabilitating heavy-haul, high volume primary grid roads using solid cements including fly ash, which would otherwise be wasted.
- We are contributing \$52,218 through the MRIF to assist in clay capping 5 km or Grid 674.
- Through the MRIF we are dedicating \$7,250 to rebuild a 30-year-old access road to increase motorists' visibility and increase safety for permanent and seasonal residents.
- Through the MRIF we are rebuilding and strengthening 7.5 km of arterial roadway in the RM of Wilton. This will improve landfill access and in access to the oilfields.
- We are spending over \$22M to make extensive repairs to Hwy 16, including twinning, grading and paving.
