

Backgrounder

Moose Jaw and Area Infrastructure Projects - Municipal Rural Infrastructure Fund (MRIF)

City of Moose Jaw – Wastewater System Upgrade *

MRIF funding: \$1,000,000; Project cost: \$4,928,610

This project involves adding a clarifier system to the City of Moose Jaw's wastewater treatment system. The clarifier is required for phosphorous removal and will be sized for future growth of the city.

City of Moose Jaw – Sewer Upgrade

MRIF funding: \$350,000; Project cost: \$3,000,000

This project involves addressing safety and health concerns caused by a serious hydrogen sulphide problem occurring along the city's Stadacona St. W. sewer line. The existing line services both residential houses and industrial plants in the city's western industrial area. Another sewer line will be installed to eliminate the hydrogen sulphide problem. One line will handle industrial sewage while the other line will service the residences along the street.

R.M. of Moose Jaw – Boharm Bridge Replacement

MRIF funding: \$36,722; Project cost: \$ 73,447

The R.M. of Moose Jaw is replacing the Boharm Bridge, a timber bridge built in 1960.

Total MRIF funding: \$1,386,722

Total project costs: \$8,002,057

**** Project is exempt from environmental assessment. Approval of all other projects is conditional upon receiving a favourable environmental assessment.***
