

## **Minimum Technical Requirements for Online Carpenter Upgrading**

**Computers used by participants for this upgrading program must meet certain minimum hardware and software requirements as outlined below.**

See <http://www.webct.com/tuneup> for the required browser settings, and required plug-ins, which are important to have installed properly.

It is important to ensure that your browser runs appropriately and at an acceptable speed.

1. The **recommended** system configuration is Microsoft Windows 2000 or Windows XP on a computer with a Pentium processor or better and 128 megabytes (MB) of RAM. Your visual display should be capable of 1024x768 pixels. A high-speed Internet connection is also recommended.
- 2.. The **minimum** system configuration options (based on your choice of operating system) are provided below. Please take particular note of the **browser** and **browser check** requirements.

SIAST Online Learning Computer Requirements		
	PC	MAC
