Dear Minister Boyd:

I am writing to provide you with an update regarding the status of my report on the Future of Uranium Public Consultation Process.

As of today, my report is nearing completion. I am sending it off for editing and desktop publishing. Unless there are any unforeseen difficulties, you can expect to receive my report by September 14, 2009.

I intend to provide you with two copies of the report and understand CIC intends to print 2,000 copies for distribution.

I will be happy to work with you and your officials once you have had an opportunity to develop a plan for public release.

Sincerely,
