

Spring 2010 ADOPT funded projects

Canaryseed Development Commission of Saskatchewan

- Field Scale Testing of Chloride on Canaryseed to Improve Grain Yield\$10,000
Phone: Kevin Hursh, Saskatoon, 933-0138

District No. 32 ADD Board

- Demonstration of Annual Forages for Greenfeed or Swath Grazing.....\$10,000
Phone: Barry Swanson, Prince Albert, 922-7289

District No. 43 ADD Board

- Scentless Chamomile Control Options in Field and Road Sides\$9,950
- Seeding and Nitrogen Rates for Malt Barley Production.....\$6,352
Phone: Wilfred Snider, Watrous, 363-4806

East Central Research Foundation

- New Corn Varieties for Grazing and Silage in East Central Saskatchewan\$6,500
- Control of Foxtail Barley\$3,930
- Seeding and Nitrogen Rates for Malt Barley Production.....\$6,123
Phone: Glenn Blakley, Canora, 745-7257

Irrigation Crop Diversification Corporation (ICDC)

- Fungicide Demonstration for Control of Fusarium Head Blight in Irrigated Hard Wheat...\$3,255
- Fungicide Demonstration for Control of White Mould in Dry Beans\$2,425
- Dry bean Variety Demonstration\$7,035
- Field Demonstration of Selected Dormant Type Alfalfa Lines for Salt Tolerance\$2,625
- Phosphate and Potassium Fertilization of Irrigated Alfalfa on Heavy Textured Soils.....\$2,650
- Diagnostic School Demonstration\$5,250
- Irrigation Water Management Practices\$3,000
- Irrigation Scheduling and Irrigation System Automation.....\$3,570
Phone: Gerry Gross, Outlook, 867-5512

North West Saskatchewan Organic Producers (NWSOP)

- Organic Cross Seeding Demonstration 2010.....\$10,000
- Evaluation of Organic Soil Amendments 2010\$7,350
Phone: Dean Gregory, Saskatoon, 384-1024

Northeast Agricultural Research Foundation (NARF)

- Efficacy and Economic Benefits of Variable Rate Fertilizer.....\$6,000
- Yield and Quality of Oat and Barley for Greenfeed over time\$4,760
- New Crops Demonstration.....\$2,500
Phone: Brett Casavant, Melfort, 873-5468

OCIA Chapter 5 of Sask. Inc.

- Flax Straw Management in an Organic System.....\$2,009
- Sweet Clover Plowdown: The Effects of Mowing\$1,000
Phone: Carol Lowndes, Kelvington, 327-4753

Parkland Holistic Management Inc.

- Grazing a Poly-Culture Cover Crop to Enhance Soil Health.....\$5,760
- Effects on Soil Health and Subsequent Crop Yield in the Year Following a Poly-Culture Cover Crop.....\$4,700
Phone: Gary Richards, Bangor, 728-5864

Parkland Organic Crop Improvement Co-operative (POCIC) OCIA Chapter 6

- Perennial Forage Crop Rotation Comparisons in Organic Cropping Systems\$6,100
Phone: Kim Tomilin, Canora, 277-4924

Provincial Council of ADD Boards

- Evaluation and Establishment of Innovative Agroforestry System Demonstration Sites in Saskatchewan.....\$8,600
Phone: Jody Oliver, Saskatoon, 955-5477

Saskatchewan Association of Agricultural Societies and Exhibitions

- SAASE Provincial Agricultural Demonstration Program - South.....\$10,000
- SAASE Provincial Agricultural Demonstration Program - North.....\$10,000
Phone: Glen Duck, Regina, 565-2121

Saskatchewan Canola Development Commission

- Evaluating the Effectiveness of Pod-Sealants for Reducing Shattering Losses in Several Cultivars of Direct-Combined Canola\$10,000
Phone: Pat Flaten, Saskatoon, 975-0730

Saskatchewan Conservation Learning Centre Inc.

- Demonstration of New Crop Varieties for NE Saskatchewan.....\$7,550
- Investigating Crop Development Opportunities in NC Saskatchewan.....\$5,200
- Optimum Seeding Dates for Camelina\$6,150
- Varietal Selections of Dwarfing Winter Hardy Apple Rootstock.....\$4,795
- Fertilizer effects on Malt Barley\$5,500
Phone: Curtis Braaten, Prince Albert, 960-1834

Saskatchewan Forage Council

- Assessment of Brush Control Herbicides in Parkland Pastures.....\$5,378
- Annual Forage Species Demonstration.....\$8,932
Phone: Janice Bruynooghe, Outlook, 966-2148

Saskatchewan Forage Seed Development Commission

- Fertilizing Forage Grasses\$10,000
Phone: Nancy Gray, Watrous, 946-3135

Saskatchewan Fruit Growers Association

- Apple Production using Hormones - Demonstration Project.....\$10,000
- Strawberry and Raspberry High Tunnel Demonstration Project\$10,000
- Cherry Pruning Demonstration Project.....\$10,000
- Saskatoon Pruning Demonstration Project\$10,000
- Haskap Fertilization and Hormone Demonstration Project to Maximize Early Growth..\$10,000
Phone: Mel Annand, Melfort, 752-2707

Saskatchewan Mustard Development Commission (SMDC)

- Mustard Agronomy Demonstration\$10,000
Phone: Kevin Hursh, Saskatoon, 222-0238

Saskatchewan Seed Potato Growers Association

- Effect of Variable Rate Fertilizing on Seed Potato Production\$7,500
- Reduced Risk Pesticide Applications in Seed Potato Crops.....\$7,000
Phone: Linda Sinclair, Outlook, 867-2078

Saskatchewan Sunflower Committee (SSC)

- Demonstration of the Nitrogen Response of Hybrid Sunflowers across Saskatchewan..\$10,000
- Demonstration of the Suitability of New Mid-oleic and High-oleic Hybrid Sunflowers across Saskatchewan.....\$10,000
Phone: Jim Thorson, Penzance, 488-4814

Saskatchewan Vegetable Growers Association

- Evaluation of Long-Acting Herbicide for Potato Weed Control\$6,500
- Herbicide Evaluation – Long-Term Weed Control between Rows of Horticultural Crops...\$9,300
Phone: Shawn Hansen, Craven, 731-3472

Seager Wheeler Farm

- Seeding and Nitrogen Rates for Malt Barley Production.....\$2,047
Phone: Ewald Epp, Rosthern, 232-4474

South East Research Farm (SERF)

- Fertilization of Alfalfa Demonstration.....\$4,895
- Crop Tolerance to Herbicide Demonstration\$10,000
- Management of Group 2 Resistant Weeds with Herbicides\$10,000
- Management of Group 2 Resistant Weeds with Agronomic Practices\$2,981
- Chemical Control of Leafy Spurge\$9,999
Phone: Myles Fuchs, Redvers, 435-4119

South West Saskatchewan OCIA Chapter 8

- Canada Thistle Control\$2,600
- Determination of the Timing of Sweet Clover Termination and its Effect on Soil Moisture and Nitrogen Fixation Benefits.....\$7,944
- Comparison of Two Different Legume Green Manures\$3,800
Phone: Martin Meinert, Swift Current, 778-1870

Southwest Forage Association

- Demonstration of New Sainfoin Varieties under Grazing\$3,150
- Demonstration of New Grass and Alfalfa Forages with Greater Salt Tolerance for Southwest Saskatchewan.....\$9,608
Phone: Rick Jensen, Swift Current, 674-2312

Western Applied Research Corporation

- Nitrogen Rates for Malt Barley Production Grown on Pulse Stubble\$9,500
- Spray Distribution Patterns for Fungicide Application.....\$10,000
- Intercropping for Better Profit\$4,850
Phone: Sherrilyn Phelps, Scott, 446-7475

Western Beef Development Centre - PAMI

- No-till Seeding a New Fall Rye Variety for Pasture Rejuvenation\$6,750
- Video Production for Electronic Presentation of Beef Research and Development.....\$5,250
Phone: Paul Jefferson, Humboldt, 682-3139
- Pasture Rejuvenation Techniques\$10,000
Phone: Bart Lardner, Humboldt, 220-9179

Wheatland Conservation Area Inc. (WCA)

- Investigating Crop Development Opportunities in Southwest Saskatchewan\$6,700
- Mustard Agronomy Demonstration\$9,930
- Nitrogen Rates of Malt Barley Production Grown on Pulse Stubble.....\$7,750
Phone: Bryan Nybo, Swift Current, 773-4775
