

Backgrounder

The Government of Saskatchewan's renewed commitment and investment into our Saskatchewan Provincial Parks (<http://www.saskparks.net>) have resulted in major upgrades (<http://www.saskparks.net/capitalupgrades>) to our park system. This much needed investment has allowed parks to undertake major projects including new service centres, new and upgraded electrical campsites, entry kiosks and much more.

The investment will continue in 2011 with more than \$10 million to be spent on capital upgrades that include electrification of 252 campsites, two new service centres and new potable water systems in two provincial parks. These upgrades build on the work done over the last four years:

2010 PROJECTS	
Candle Lake	<ul style="list-style-type: none"> • Sandy Bay water treatment plant upgrade
Cypress Hills	<ul style="list-style-type: none"> • maintenance building • upgrade electrical service at 69 campsites at Rainbow Campground
