

# 2017 Saskatchewan Resident Big Game Draw Supplement

The *2017 Saskatchewan Resident Big Game Draw Supplement* provides information on the upcoming season dates and species quotas for big game draws and provides advance notice of relevant changes to this fall's regular big game seasons. The 2017 big game draw application period will begin on May 1 and close on May 25, 2017 at midnight.

Saskatchewan's big game draw allocates hunting licences for the province's most sought after hunting opportunities. The number of people applying for a draw licence reached an all-time high in 2016. This interest is highest for either-sex licences for moose, elk and mule deer. A number of popular zones have thousands of eligible top priority pool (Super A) applications. Applicants are encouraged to carefully consider their wildlife management zone (WMZ) choices and consider applying for multiple zones and/or less popular areas to increase their chances of being successful.

Please see the 'New for 2017' section in this supplement for updates regarding each draw species and changes for RCMP members.

Ministry biologists are developing management plans to ensure game species and their habitats are managed sustainably. The plans will establish management objectives, thresholds that will trigger management actions, and will prescribe how allocation of harvest occurs. The ministry will be consulting with hunters and other groups this year as part of developing recommendations for the 2018 season.

**The ministry will be conducting a review of the big game draw in light of the increasing number of applications. This review may result in changes to the big game draw for 2018.**

## NOTE

**Hunters, please remember!**  
The 2017 big game draw  
closes at midnight on May 25.

*Good luck to all applicants!*

## Hunters, please apply early!

**The application period for the 2017 big game draw will run from May 1 to midnight on May 25. Please ensure adequate time to complete your application!**

# What's New for 2017

## Big Game Draw

This year's draw will open on May 1 and close on May 25, 2017 at midnight. This will allow the results of the big game draw to be released earlier in the year to help you with your vacation planning.

Hunters are encouraged to apply early in order to have time to resolve any potential issues. Complete application instructions and information can be found on page 3.

To assist applicants in their decisions, information from the 2016 draw is available on the Hunting, Angling and Trapping (HAL) website [saskatchewanlicences.active.com](http://saskatchewanlicences.active.com). Details include the number of hunters applying for each zone, as well as the pool status of the hunters who were drawn. Reviewing this information in advance will aid in identifying zones with fewer applicants per available licence, and therefore offering a greater chance to be successful.

The HAL website also includes information regarding the 2017 season dates, quotas, application instructions and priority pools.

## Pronghorn Antelope Opportunities

The mild 2016-17 winter is expected to allow pronghorn antelope to continue their population recovery. Wildlife managers expect to offer hunting opportunities in a number of zones within the pronghorn range. For 2017, season structure and dates will remain the same as 2016.

Applicants are reminded that the final quota may be adjusted or eliminated based on actual, current year population estimates. Please review the listed WMZ combinations to ensure you are applying for your area of interest.

Applications for the pronghorn antelope draw will be accepted during the normal May application period; however, the draw will not be conducted until July. Draw results will be released immediately after, with an email notice sent to the application group leader (if they have an email address registered in HAL). The status of the pronghorn draw will be posted on our website.

## Moose Opportunities

Moose populations continue to be managed as southern (farmland) and northern (forest) populations.

Farmland moose populations are at or above target levels in most WMZs. Quotas and season dates will remain similar to 2016 with select WMZs seeing slight adjustments.

Quotas and season dates will also remain similar to 2016 in forest WMZs. Please refer to the additional season information found in this supplement for further details.

## Mule Deer Opportunities

Provincially, mule deer populations are recovering from recent winter mortality. In response, quotas for both either-sex and antlerless animals have been increased in select WMZs. Either-sex draw mule deer opportunities are now offered in 58 WMZs with a new season in WMZ 35.

Antlerless seasons, which are used to moderate population growth and balance herd structure, will be offered in 49 zones including new opportunities in WMZ 43 and 50 for the 2017 season. A number of zones will once again offer a two antlerless mule deer licence option (see page 6 for details).

Regular archery mule deer hunting opportunities will be offered in the same WMZs as 2016.

## Elk Opportunities

Elk populations in many farmland zones continue to be at or above target levels. As a result, quotas in a number of zones have been increased. New either-sex elk hunting opportunities have been added in WMZs 8, 23, 28, 44 and 45. Hunters interested in antlerless elk can apply for new hunts in WMZs 9, 44 and 45.

Big game draw applicants interested in antlerless elk in WMZ 33A (including Moose Mountain Provincial Park) are reminded that seasons offered in this zone are divided into early and late opportunities. Please note that the split seasons are actually a zone choice; hunters can apply for October-December season dates and/or November-January season dates. Please refer to page 8 for more detailed information regarding the split seasons.

Regular season elk opportunities across the province will be unchanged from 2016.

## White-tailed Deer Opportunities

This past winter supported white-tailed deer population growth with relatively mild temperatures and favourable snow depths. The exception to this was southeastern Saskatchewan where above average snow depths were present for most of the winter.

To further support the continued recovery of Saskatchewan's white-tailed deer populations, the 2017 season dates for Saskatchewan residents will be identical to last year, both for either-sex and antlerless white-tailed deer.

## RCMP Officers

The HAL system and the big game draw website have changed for RCMP officers. The use of regimental numbers for residency purposes will no longer be supported. RCMP officers are encouraged to edit their HAL account and include their full name as printed on their valid Saskatchewan Health Services Card.

# 2017 guide to applying for the Big Game Draw

## 2017 Big Game Draw

The Saskatchewan big game draw is more popular than ever with a record number of applicants in 2016. Due to this high demand for licences, applicants should note that some applicants in the top priority pool will not be successful. Please carefully consider your zone or hunt choices to maximize your chances of being successful. Applying for multiple zones for the same species as well as choosing less popular zones will increase your chances of success.

## Automated Licensing

All big game draw applications, pool status, draw history, results and licence sales are processed through HAL.

All applicants must be Saskatchewan residents registered in the automated licence system and have a HAL identification number (HAL ID) to apply.

## Existing HAL Customers

If you have previously created an account, please ensure you use the same HAL ID and do not create a second account.

You can use your secondary identification number to access your account, or use your HAL ID which can be found on any previously printed licences.

If you have a HAL ID but have not previously set up a web account, select "Look Up Your Profile" on the sign in page. Once you have entered your identification and date of birth you will be prompted to select a password. This will be used to sign into your web account in the future. To set up a web account, you will also need to include a valid email address on your account.

Please call 1-855-848-4773 (8 a.m. to 9 p.m.) if you are having difficulty applying or accessing your existing account.

## New HAL Customers

If you have not purchased a Saskatchewan angling or hunting licence, or did not apply for the big game draw since 2013, you must create a HAL account.

New customers must create an account the first time they apply for a licence or submit a big game draw application. Information required for an account includes a full name as printed on your Saskatchewan valid Health Services Card. You can create an account online at [saskatchewanlicences.active.com](http://saskatchewanlicences.active.com) or by phone at 1-888-773-8450 (8 a.m. to 9 p.m.).

New customers creating an online account will be required to select a password to secure their personal data and protect it from unauthorized access.

## How Do I apply for the Saskatchewan Resident Big Game Draw?

All 2017 big game draw applications must be completed through your personal web account within the HAL system. Persons wishing to apply for the big game draw and do not have access to a computer can visit a ministry office for assistance. Hunters are reminded to confirm their Saskatchewan residency before applying for the big game draw. Please see the Saskatchewan residency verification feature on the HAL website [saskatchewanlicences.active.com](http://saskatchewanlicences.active.com). Your name must match that shown on your valid Health Services Card in order to pass the residency check.

If you are submitting an application with other hunters, be sure you obtain the HAL ID and date of birth for all applicants prior to applying.

You must apply online at [saskatchewanlicences.active.com](http://saskatchewanlicences.active.com) and choose "Saskatchewan Resident Big Game Draw Information". Applications can be submitted from May 1 to midnight on May 25, 2017. This website also contains all the information you need to make your application decisions such as pool status, available hunts, tentative quotas, proper zone designations and season dates. You will also find the big game draw results and harvest survey information from previous years to aid with hunt selections.

The first step is selecting the species you are interested in and then to select your WMZ choices. These zone choices

include zone 99, which will maintain your 'Super A' status or allow you to advance from 'A' pool to 'Super A' without applying for a licence.

Further information is available for each available hunt by selecting 'More Info' which will display the open season dates, the 2017 quota and a summary of the 2016 draw, including total number of applicants and lowest priority pool drawn from in 2016.

Applicants will be able to choose up to six zones in order of preference from which they will be considered in the draw. Please remember that some zones may be antlerless only seasons, while some have both either-sex and antlerless options available. You can filter the available hunt options to display either-sex hunts only or antlerless only hunts. Once you have selected your hunt choices you may change the preference order using the up and down arrows on the following screen.

The number of zones (to a maximum of six) you choose on your application can increase the likelihood of being drawn.

Remember zone designations with an 'A' following the zone numbers are for antlerless animals.

For elk and moose, you can apply for both either-sex and antlerless seasons on the same application. For example, you may wish to apply for an either-sex hunt/season as your first choice and then antlerless hunt/season as a later choice.

The next step will be to enter other hunters if you wish to apply as a group. There is a maximum of four applicants per application. Select 'Add Group Members' and enter each group member's HAL ID and date of birth. The application will be assigned to a pool as determined by the applicant with the lowest pool status.

An individual can only submit one application per species. The exception is for mule deer and antlerless mule deer which are considered separate species choices for the purposes of the big game draw. Youth are also allowed

to submit both an antlerless mule deer application and a youth draw application. If you submit more than one application for the same species, all applications will be excluded from the draw including all hunters included on those applications.

Once an application is submitted, an email is automatically sent to the group leader's email address (emails are not sent to all applicants on the application). The group leader must have an accurate email address in order to ensure delivery.

### How the Big Game Draw is Executed

Each application is assigned a random number to be used in the draw process. If your application is selected, your first hunt (zone) selection is considered. If all licences for that hunt have already been issued to applicants drawn ahead of your application, your second hunt choice will be considered. This process is repeated until all hunt choices have been reviewed. If no quota is available for any of your hunt choices, your application will not be successful. If you are drawn you will drop to 'C' Pool the following year for that species.

If you are selected for a draw licence, you will not be allowed to purchase a regular licence for the same species and will move to 'C' Pool for the following year. This applies even if you decide not to purchase the draw licence.

### Who is Eligible?

Only Saskatchewan residents can apply for the Saskatchewan big game draw. A Saskatchewan resident is:

- a Canadian resident whose principal residence is in Saskatchewan and has been living in the province for three months prior to applying for a licence and possesses a valid health services card;
- a member of the regular force of the Canadian Armed forces who was a Saskatchewan resident when recruited or deployed from the province.

Applicants must be at least 12 years of age to apply for a licence. All applicants born after January 1, 1971 must graduate from a Firearm Safety/Hunter Education ([saskhunter.ca](http://saskhunter.ca)) course before applying. Persons whose hunting rights are restricted for either a *Wildlife Act* conviction or a firearm incident are not

eligible to submit an application to the big game draw (including zone 99).

### Youth Draw

Hunters 12 to 15 years of age can apply for the youth draw for antlerless mule deer by selecting "Youth Draw" in the draw menu. This process provides a greater opportunity for young hunters to be selected. A youth may apply for both "Antlerless Mule Deer" and the "Youth Draw" by using separate applications. An applicant cannot be drawn for both antlerless mule deer and the youth draw. If an applicant is initially drawn for both antlerless mule deer and the youth draw, preference is given to the antlerless mule deer draw and his/her "Youth Draw" application will be removed.

### How do I Pay for my Application?

As in previous years, you must have a Visa or MasterCard in order to pay. There is a non-refundable \$6.00 fee for each application. If you do not have a credit card, your options include using a family member's card or purchasing a prepaid credit card. Prepaid cards are available from Canada Post, most banks, cheque cashing outlets, convenience stores and other retail businesses. Fees may apply.

### Pool History and Status

You can view your pool history through your HAL web account in the 'My Account' section. Note that history prior to 2006 is not displayed and is only available by request. If there are any issues with your pool status, contact the Saskatchewan Ministry of Environment at 1-800-567-4224 or [draw.biggame@gov.sk.ca](mailto:draw.biggame@gov.sk.ca).

The Saskatchewan big game draw uses a system of priority pools that provide a higher priority to applicants who have not been drawn for a number of years. The priority pools are established based on the last time a hunter was drawn for a particular species. There are four species-specific pools:

- 'Super A' pool (first priority) consists of applicants who qualified for 'A' pool in the previous year but were not drawn for that species. Hunters must apply each year to maintain their 'Super A' status for a particular species.
- 'A' pool (second priority) consists of applicants who were drawn three

years previous, all applicants who were drawn more than three years previous but did not submit an application the previous year, and all first-time applicants for a species. Hunters who are in 'B' or 'C' pool automatically progress to 'A' pool without applying annually.

- 'B' pool (third priority) consists of applicants who were drawn two years previous.
- 'C' pool (fourth priority) consists of applicants who were drawn last year.

Ensure that you have and use only one HAL account on all big game draw applications.

If you wish to advance your 'A' pool status to 'Super A' or maintain your 'Super A' status but do not want to be drawn for a particular species, select the zone 99 as your hunt choice for that species.

### Editing an Application

Make sure you review your application prior to the big game draw deadline. The most common mistake made is unintentionally selecting an undesirable hunt choice, such as selecting an antlerless only hunt when the intention was to select an either-sex hunt for the same zone.

Big game draw applications can be edited at any time before the application period closes. The group leader of an application (the individual who submitted the application) is able to change hunt choices and/or change group members. These changes can be made on the group leader's HAL web account. Other members of the application can view the application details but will not be able to make changes.

If you wish to completely withdraw your application it must be done either in person or by request via an email to [draw.biggame@gov.sk.ca](mailto:draw.biggame@gov.sk.ca). These changes must be received by 5 p.m. on May 25, 2017.

Changes cannot be made to your application past May 25, and if drawn you will move to 'C Pool' for the 2018 big game draw regardless of whether or not you purchase your licence.

### How do I get my Licence if I am drawn?

The big game draw is executed in early June and results will be available by mid-June. The pronghorn antelope draw will take place in mid-July with the results released immediately afterward. The status of the pronghorn draw will be posted on the ministry website.

All applicants are responsible for checking their draw result(s) via their HAL account, at a Ministry of Environment office, select provincial park offices or through the Help Desk at 1-855-848-4773. Notification emails are sent to inform applicants of their result; however, successful email delivery cannot be guaranteed. These notifications can only be sent to applicants who have included their

correct email address on their HAL account. Do not assume that you are not drawn if you did not receive an email.

Successful applicants must purchase their licences through HAL. Big game draw licences will be available for purchase beginning August 1.

Applicants who are drawn are considered to be 'holding' a draw licence for that species, regardless of whether the licence is purchased, and therefore are not eligible to purchase a regular licence for that species. Successful applicants cannot forfeit or transfer their licence. All drawn applicants will move to 'C' pool for 2018. Refunds and pool status reinstatements are only issued for medical reasons and other special circumstances.

### Contact Information

Detailed application instructions can be found at [saskatchewanlicences.active.com](http://saskatchewanlicences.active.com).

For questions regarding individual HAL accounts, identification information or technical issues related to submitting applications or purchasing licences, please contact the Help Desk at 1-855-848-4773 (8 a.m. to 9 p.m.).

### 2017 Guide Availability

Hunters' and Trappers' Guide (online) July  
Hunters' and Trappers' Guide (print) August

### Need help with your big game draw application?

Check [saskatchewanlicences.active.com](http://saskatchewanlicences.active.com) – the 'Saskatchewan Big Game Draw Overview' for answers or by phone at 1-855-848-4773 (8 a.m. to 9 p.m.).

### NOTE

The Saskatchewan Resident Big Game Draw opens May 1, 2017.

### Licence Information

All awarded big game draw licences will be available through the automated licence system on the individual hunter's HAL account beginning August 1. Licences are not mailed to successful applicants. Big game draw applicants can check draw results on their online HAL account, a local ministry office or by calling 1-855-848-4773. If you are selected for a draw licence, you will not be allowed to purchase a regular licence for the same species. This applies even if you decide not to purchase the draw licence.

## Licence Fees

**Attention: Licence fees for 2017 have changed.**

	Prices include GST
<b>Wildlife Habitat Licence</b> (all hunters) .....	\$15.00
<b>Big Game Draw Application Fee</b> .....	\$6.00
<b>Elk:</b> Saskatchewan Resident Draw .....	\$65.00
<b>Moose:</b> Saskatchewan Resident Draw .....	\$65.00
<b>Mule Deer:</b> Saskatchewan Resident Draw .....	\$45.00
<b>1st Antlerless Mule Deer:</b> Saskatchewan Resident Draw .....	\$30.00
<b>2nd Antlerless Mule Deer:</b> Saskatchewan Resident Draw, select zones only .....	\$30.00
<b>Pronghorn Antelope:</b> Saskatchewan Resident Draw .....	\$45.00
<b>Duplicate Seals</b> (replacement of lost, detached or destroyed seals are available from ministry or select provincial park offices) .....	\$5.40

### NOTE

Your hunting licence and seals (when applicable) must be carried with you at all times while hunting.

# Draw Seasons

Hunting is allowed in wildlife management units (WMU) and national wildlife areas that are within a wildlife management zone (WMZ) that is listed as being open for big game. The exception is Fort à La Corne WMU and the St. Denis National Wildlife Research Area. Provincial parks not listed are closed to hunting.

**Proposed new season dates, open wildlife management zones or open zone combinations are indicated in bold and red (tentative).**

### Our licence system is automated!

You can purchase your hunting, angling or trapping licences:

- online anytime (big game licences require a previously acquired blank seal for immediate purchase, or allow 10 business days for delivery by mail);
- through Saskatchewan licence issuers, Ministry of Environment and select provincial park offices; or
- by phone using a credit card at 1-855-848-4773 (8 a.m. to 9 p.m.). Please allow 10 business days for delivery by mail.

Remember: Licence purchases can be made simply by accessing your existing account using your HAL Identification Number (HAL ID) or your previously registered secondary identification number. Do not create a second account. If you require assistance with your identification, call 1-855-848-4773 (8 a.m. to 9 p.m.).

**Hunters, please remember!**  
The 2017 big game draw closes at midnight on May 25.

**NOTE**
