

## Backgrounder

### Residents of Saskatoon area to benefit from upgrades to water, wastewater, and solid waste infrastructure and other community and green infrastructure projects

Funding through the Investing in Canada plan will support 11 infrastructure projects in Saskatoon and area. The Government of Canada is investing more than \$41.1 million in these projects, with the Government of Saskatchewan providing over \$34.3 million. The City of Saskatoon is providing \$25.8 million to support seven of these projects. The remaining projects are funded by other recipients. In total, this represents a combined infrastructure investment of more than \$102 million. Funding recipients are responsible for any additional project costs.

*Projects funded under the Green Infrastructure Stream, including drinking water, wastewater, solid waste management, adaptation and disaster mitigation, active transportation, and clean energy projects*

Project title & Proponent	Project Description	Federal contribution	Provincial contribution	Municipal Contribution
Wastewater Treatment Plant North 40 Forcemain Twinning – City of Saskatoon	Construct two new forcemains to convey biosolids to the City of Saskatoon's North 40 Biosolids Handling Facility.	\$12,680,000	\$10,565,610	\$8,454,390
Recovery Park – City of Saskatoon	Construct a waste recovery and transfer facility.	\$7,800,000	\$6,499,350	\$5,200,650
Spadina Lift Station – City of Saskatoon	Construct a new lift station as the existing one is at the end of its service life.	\$7,200,000	\$ 5,999,400	\$4,800,600
Montgomery Place Drainage Strategy – City of Saskatoon	Construct approximately eight kilometres of ditch and right-of-way crossings to improve surface drainage and reduce the flooding risk in the Montgomery Place neighbourhood.	\$3,200,000	\$2,666,400	\$2,133,600
Landfill Gas Expansion – City of Saskatoon	Reduce landfill emissions of greenhouse gases by expanding the landfill gas collection, flaring system and	\$3,200,000	\$2,666,400	\$2,133,600

	power generation plant.			
Active Transportation Plan and Sidewalk Expansion – City of Saskatoon	Construct approximately eight kilometres of sidewalks in high-pedestrian areas to eliminate gaps in the sidewalk network.	\$2,000,000	\$1,666,500	\$1,333,500
Utility Scale Solar Power Plant – City of Saskatoon	Build a utility solar power generation facility that will be connected to Saskatoon Light and Power's grid to help reduce community greenhouse gases.	\$1,400,000	\$1,166,550	\$933,450
Saskatoon East Potable Water Pipeline Replacement – SaskWater	Replace three kilometres of water distribution pipeline to continue to provide reliable and sustainable service to the communities of Allan, Bradwell, Clavet, Elstow, RM of Blucher, RM of Corman Park, and 21 rural water utility groups, including the Lost River Utility, Highway 41 Water Utility, and the Dundurn Rural Water Utility.	\$1,341,600	\$1,117,888	\$894,512
<b>Total federal, provincial and municipal funding</b>		\$38,821,600	\$32,348,098	\$25,884,302

*Projects funded under the new COVID-19 Resilience Stream*

<b>Project title &amp; Proponent</b>	<b>Project Description</b>	<b>Federal contribution</b>	<b>Provincial contribution</b>	<b>Proponent Contribution</b>
Meewasin Trail Enhancements – Meewasin Valley Authority	Add new trails, benches, picnic tables, interpretive signage, and associated works to increase safety,	\$2,202,800	1,835,483	\$1,468,717

	capacity, and accessibility.			
Curling Rink Facility Re-roofing Project – Sutherland Curling Club	Replace the existing roof with a metal one to improve the building’s structure and energy efficiency.	\$100,740	\$83,942	\$67,168
Washrooms that Work for All – Saskatoon Western Development Museum	Upgrade the public washrooms to make them gender neutral and wheelchair accessible.	\$48,542	\$40,448	\$32,365
<b>Total federal, provincial and proponent funding</b>		\$2,352,082	\$1,959,873	\$1,568,250
