

## Canada and Saskatchewan announce investments in rural bridge and culvert projects

The Government of Canada is investing \$621,201 in five projects under the Rural and Northern Communities Infrastructure Stream (RNIS) of the Investing in Canada Infrastructure Program, as well as a further \$250,036 to one of the projects under the Canada Community-Building Fund (CCBF), for a combined total investment of \$871,237. For projects requiring consultation with Indigenous groups, funding is conditional on all consultation requirements being met.

The Government of Saskatchewan is contributing over \$1.2 million toward these five projects. Contributions by recipients toward their respective projects total more than \$1.6 million.

In total, this represents a combined infrastructure investment of more than \$3.7 million. Funding recipients are responsible for any additional project costs.

Location	Project	Description	Federal Contribution under RNIS (+CCBF Contribution)	Provincial Contribution	Proponent Contribution
Excelsior No. 166, Rural Municipality of	Rush Lake Bridge Replacement	Replace existing treated timber bridge with two new large culverts	\$83,350	\$166,650	\$250,000
