

Agricultural Demonstration of Practices and Technologies (ADOPT) - 2021

Indian Head Agricultural Research Foundation	
Crop Response to Shallow Versus Deep-Banded Nitrogen Fertilizer Formulations Relative to Other Benchmark Nitrogen Fertilizer*	\$8,750
Fall Rye Cover Crop Effects on Canola Establishment and Response to Nitrogen*	\$8,750
Spring Cereal Re-Seeding Options for Poor Stands of Winter Wheat	\$9,900
Prairie Swine Centre	
Enhancing the Adoption of Best Management Practices in the Saskatchewan Pork Industry Through a Virtual Pork Interpretive Gallery	\$15,200
Saskatchewan Stock Growers Association	
Demonstrating the Advantages of Feeding Canola Meal on Fall Pasture**	\$19,910
Saskatchewan Barley Development Commission	
Can Winter Barley be Grown in Central Saskatchewan?***	\$4,630
Saskatchewan Beekeepers Development Commission	
Demonstration of Assessment Methods of Honeybee Hygienic Trait and its Implication on Bee Resistance to Varroa Mites	\$21,900
Saskatchewan Conservation Learning Centre	
Exploring Green Manure Options in North Central Saskatchewan	\$13,140
Saskatchewan Forage Seed Development Commission	
Demonstrating the Dual-Use Potential, Simultaneous Grain and Forage Production, of a New Seed Technology of Intermediate Wheat	\$30,811
Saskatchewan Fruit Growers Association	
Internet of Things for Management of Growth Parameters in High Tunnel Strawberry and Raspberry Production	\$19,740
Saskatchewan Sheep Development Board	
GenOvis Genetic Evaluation Program Ultrasound Scanning Education and Training	\$7,775
Saskatchewan Vegetable Growers Association	
Demonstration of Hardiness and Galanthamine Levels in Daffodils Grown in SK	\$9,975
SaskOrganics Association Inc.	
Demonstrating the Dual-Use Potential, Simultaneous Grain and Forage Production, of a New Seed Technology of Intermediate Wheat	\$14,500

Southwest Saskatchewan Forage Cooperative Association	
Demonstrating the advantages of feeding supplemental protein on fall pasture**	\$9,751
University of Saskatchewan	
The Implications of Feed Outages in Saskatchewan Pork Production Facilities	\$13,370
Yorkton Agricultural Information Inc.	
Perennial Forage Species Demonstration**	\$5,500

This year's projects received \$45,000 in co-funding from Fertilizer Canada and Saskatchewan Cattlemen's Association.

* Fertilizer Canada provided \$5,000 in funding towards two projects focused on 4R nutrient Stewardship Best Management Practices.

** Saskatchewan Cattlemen's Association provided \$40,000 in funding towards four projects.
