

Canada and Saskatchewan announce investments in 12 rural bridge and culvert projects across the province

The Government of Canada is investing more than \$1.1 million in 12 projects under the Rural and Northern Communities Infrastructure Stream (RNIS) of the Investing in Canada Infrastructure Program, as well as a further \$716,974 to four of the projects under the Gas Tax Fund, for a combined federal investment of over \$1.8 million. For projects requiring consultations with Indigenous groups, funding is conditional on all consultation requirements being met. The Government of Saskatchewan is contributing over \$2.2 million. Contributions by recipients toward their respective projects are over \$2.7 million. In total, this represents a combined infrastructure investment of more than \$6.8 million. Funding recipients are responsible for any additional project costs.

Location	Project	Description	Federal Contribution under RNIS (+ Federal Contribution under Gas Tax Fund)	Provincial Contribution	Proponent Contribution
