

Backgrounder

Nine infrastructure projects announced in Saskatchewan to strengthen and support communities

Through the Community, Culture and Recreation Stream (CCRIS) and the Green Infrastructure Stream (GIS) of the Investing in Canada Infrastructure Program, the Government of Canada is investing \$8,862,251, and the Government of Saskatchewan is investing \$4,727,697 to support five recreation projects and four green infrastructure projects across Saskatchewan.

Project information:

Location	Project Name	Project Details	Funding Stream	Federal Funding	Provincial Funding	Municipal / Other Funding
Local Government District of White Bear First Nation	Community Spray Park	Construction of a publicly accessible all-ages spray park and social gathering place. This will include all-ages water play equipment, full wheelchair accessibility, and a recirculating water treatment system.	CCRIS	\$266,987	\$88,995	\$0
On-Reserve Indigenous of Buffalo River Dene First Nation	Community Centre	Construction of a new 9,087-square-foot community centre connecting to the current community water and sewer infrastructure.	CCRIS	\$1,418,087	\$587,242	\$0
Pasqua First Nation	New Spray Park	Construction of a publicly accessible 3,300-square-foot all-ages spray park with a range of aquatic features.	CCRIS	\$507,986	\$169,328	\$0
Pheasant Rump Nakota First Nation	Cultural Centre	Construction of a new 7,800-square-foot Indigenous Cultural Center to provide a safe and accessible space for community members to gather and engage with traditional knowledge,	CCRIS	\$3,350,499	\$1,116,833	\$0

		language, and culture.				
Valley Regional Park Authority	VRP Clubhouse/Pro Shop Building Replacement	Replacement of two seasonal buildings with a new all-season, multi-functional facility that will increase safety, accessibility, efficiency, and offer the capacity to offer year-round programs and services.	CCRIS	\$1,371,500	\$1,142,802	\$914,448
Town of Rockglen	Water and Wastewater Improvements	Replacement of 165 m of aging asbestos concrete water and sewer mains, along with hydrants, valves, manholes, and 14 service connections.	GIS	\$386,062	\$321,686	\$257,406
Village of Abbey	Water Treatment Plant Upgrades	This project involves the upgrade of the Village's mid-1960s water treatment plant to address water quality issues, ensuring compliance with regulations and providing safe drinking water for residents.	GIS	\$276,000	\$229,977	\$184,023
Village of Lipton	Lagoon Expansion	Expansion of the existing lagoon to meet current regulations by adding a new 36,800-cubic-metre storage cell, piping works, and discharge location modifications.	GIS	\$638,300	\$531,863	\$425,587
Village of Pangman	Lagoon Expansion	Expansion of the existing lagoon by constructing a new 31,600-cubic-metre storage cell, transfer structure and converting the existing storage cell into a treatment cell to meet current regulations.	GIS	\$646,830	\$538,971	\$431,274
