Introduction to the Public Accounts

The 2022-23 Public Accounts of the Government of Saskatchewan (the Government) are prepared in accordance with the *Financial Administration Act, 1993* and consist of two volumes. The Government is responsible for the integrity and objectivity of the information presented in these two volumes.

Volume 1

Financial Statement Discussion and Analysis provides users of the Government's Summary Financial Statements with an overview of the Government's performance by presenting comparative financial highlights and variance analysis. The information in the financial statement discussion and analysis should be read in conjunction with the Summary Financial Statements.

Summary Financial Statements provide an accounting of the full nature and extent of the financial affairs and resources of the Government. This includes the financial results of the General Revenue Fund, Crown corporations, boards and other entities controlled by the Government. A listing of all entities controlled by the Government, collectively referred to as the government reporting entity, is provided in schedule 19 of the Summary Financial Statements.

Volume 2

Volume 2 contains the following unaudited financial information:

- General Revenue Fund schedules and details;
- General Revenue Fund capital asset acquisitions schedule and details;
- revolving fund expenditure details;
- summary listing of payees who provided goods and services and capital assets of \$50,000 or more to the General Revenue Fund and revolving funds during the fiscal year;
- assets, liabilities and residual balances of pension plans and trust funds administered by the Government;
- remissions of taxes and fees; and
- road-use fuel tax accountability revenues and expenditures.

The Public Accounts, including the Compendiums, are available on the Government of Saskatchewan's website.

The Compendium of Financial Statements contains the financial statements of various government agencies, boards, commissions, pension plans, special purpose funds and institutions, as well as Crown corporations which are accountable to Treasury Board.

The Compendium of Payee Details contains the payee details of all Summary Financial Statement entities, except Crown Investments Corporation of Saskatchewan and its subsidiaries.

In addition, the financial statements and payee details of Crown corporations and wholly-owned subsidiaries that are accountable to the Crown Investments Corporation of Saskatchewan (CIC) Board can be found on CIC's website.

Guide to Volume 2

Volume 2 is prepared to enhance accountability by providing unaudited financial information for the General Revenue Fund.

The General Revenue Fund is comprised of all ministries and offices of the Government. This is the fund into which all revenues are paid, unless otherwise provided for by legislation, and from which all expenses are appropriated by the Legislative Assembly.

Some schedules provide a comparison of appropriations to expenditures by program. Expenditure is calculated from total expense, adjusting for capital asset acquisitions, amortization and other changes in non-financial assets, including prepaid expenses.

The Ministry of Energy and Resources develops, coordinates, and implements policies and programs to promote the growth and responsible development of the province's natural resources industries. The Ministry operates as the primary regulatory authority for the oil and gas industry and ensures competitive royalty systems, regulations and policies for all natural resource sectors. The Ministry also plays an important role in promoting Saskatchewan's diverse resource potential to investors around the world.

Central Management and Services (Subvote ER01)

Objective

Provides executive direction and strategic leadership required for the delivery of the Ministry's mandate; oversight of the Integrated Resource Information System for oil, gas and other minerals; and, invoices, assesses, collects and audits non-renewable resource revenues. Administers Crown mineral rights, including the mineral provisions of Treaty Land Entitlement and the Public Offering Process. It also provides funding for various central services that are delivered through a shared-services memorandum of understanding with the Ministry of Immigration and Career Training and the Ministry of Trade and Export Development.

Program Delivery

This program provides coordination and liaison support with various government agencies in delivering the processes that support the Ministry's mandate. It provides support in areas of revenue management, audit services and information technology for Ministry information systems. Issues and administers the Crown's mineral rights tenure for commodities such as oil, natural gas, oil shale, helium, gold, base metals, uranium, subsurface minerals (potash and brine minerals), diamonds, coal, alkali minerals and quarriable substances. Oversees the development of land and Aboriginal policies related to non-renewable resources and the implementation of land claim agreements (Treaty Land Entitlement and Specific Claims). Management of the Mineral Rights Tax and Trusts Lands programs. In addition, it provides financial reporting for the resource areas of the Ministry.

Energy Regulation (Subvote ER05)

Objective

Regulates the lifecycle activities related to the responsible development of Saskatchewan's oil, gas and associated mineral resources. Implements regulatory programs related to protecting public safety and the environment, maximizing recovery from oil and gas reservoirs, preventing wasteful production, managing greenhouse gas emissions, collecting well data and production statistics and managing long-term liabilities associated with wells, facilities and pipelines. It also supports the operation of the Surface Rights Board of Arbitration.

Program Delivery

This program, which is largely funded through the annual assessment of the Administrative Levy, is responsible for the licensing of all wells, facilities and provincial pipelines in Saskatchewan. Activities associated with the delivery of the program include the management of oil and gas reservoirs, the prevention of waste, the establishment of operating standards, the enforcement of regulatory requirements, upstream oil and gas, greenhouse gas emissions

management, and the collection and dissemination of information related to exploration, production and sales. In support of these activities, this program is also responsible for managing the long-term liability associated with oil and gas wells and facilities including administering the Orphan Well Fund.

Resource Development (Subvote ER06)

Objective

Advances policies and programs that encourage the development of the mining, energy and forestry sectors with a focus on enhancing jurisdictional competitiveness. Investigates, compiles and maintains the foundational information about Saskatchewan's geology and its mineral and petroleum resources. Designs and maintains royalty and tax structures that optimize revenue while maintaining competitiveness throughout the resource commodity cycle. Provides for the reclamation of legacy northern uranium mines and management of sites within the Institutional Control Program.

Program Delivery

This program provides policy direction on energy and mineral forecasting, taxation and royalties, issues related to resource development, conservation and remediation, as well as advice on inter-provincial and federal-provincial initiatives and issues that may affect the resource sectors of the provincial economy. Administers the royalty system, including several growth incentive programs. It also allocates timber in the commercial forest zone, performs geological and mineralogical studies; maintains geoscientific databases, promotes resource development through publications, meetings, displays and individual consultations; and assesses petroleum and mineral exploration results.

Non-Appropriated Expense Adjustment

Objective

Accounts for expenses and expense recoveries that do not require appropriation. Typically these are expenses for which the cash outflow is appropriated in a different fiscal year than the expense or recovery is recorded.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the asset. Amortization is a non-voted, non-cash expense.

Provides support for the integration of cumulative effects analysis in decisions related to resource management and environmental protection.

Program Delivery

Through scientific research, economic analysis and intergovernmental relations, this program develops policy options, regulates and reports on provincial greenhouse gas emissions and coordinates implementation of provincial climate change strategy. This program works with other ministries and other orders of government to inform the

development of Pan-Canadian policy and Canada's international positions on climate change.

Fish, Wildlife and Lands (Subvote EN07)

Objective

Conserves and allocates fish and wildlife populations and maintains biodiversity, including support of research, management of species data and leadership on Species at Risk recovery. The Fish and Wildlife Development Fund assists in protecting vulnerable fish and wildlife habitat and promotes resource education and endangered species programming through third parties. Develops and administers policies and programs for the management of Crown resource land to maintain a healthy ecosystem in balance with sustainable land use by implementing land use plans, responding to Treaty Land Entitlement and specific land claims, maintaining the provincial network of protected areas and allocating Crown lands. It also receives and reviews all proposals for oil, gas, and mineral exploration and provides required environmental authorizations.

Program Delivery

Through legislation, policy, framework development, oversight and coordination with third parties, this program provides stewardship for fish and wildlife populations and Crown resource lands to maintain healthy biodiversity for the recreational, social and economic benefit of Saskatchewan people.

Forest Service (Subvote EN09)

Objective

Delivers an ecosystem-based approach to managing provincial forests sustainably through the licensing of forest products and the oversight of forest industry planning, harvesting and forest renewal. It also collects Crown dues and fees from harvested forest products, monitors and controls damage to forests from insects and disease, renews historically depleted forest lands and provides forest inventory and resource analysis services.

Program Delivery

Through regulations, standards, compliance and licensing frameworks, this program reviews and approves forest management plans and forest industry operating plans, and conducts audits of forest industry compliance with forest regeneration standards and inspections of harvesting practices and timber scaling. The program reviews and manages spatial forest management activity data that forest industries are required to submit. Through collaborative work with other ministries, agencies and governments, this program attempts to mitigate damage caused by destructive insects and diseases on designated lands.

Environmental Protection (Subvote EN11)

Objective

Protects the environment and human health from the potential adverse effects from municipal and industrial development and manages the environmental impact assessment process and the environmental audit programs. Provides centralized information management and delivery

of technology initiatives to support business outcomes, and provides organizational IT-focused change management and training services. It also manages the industry stewardship recycling, hazardous material response, air quality and impacted sites programs, and provides financial support to the Beverage Container Collection and Recycling System.

Program Delivery

Through regulatory, compliance and licensing functions, this program protects the environment and human health from the potential adverse effects of municipal and industrial development, with a focus on mining, industrial and commercial operations, landfills, spills and environmental emergencies, contaminated sites, hazardous substances and waste, and the storage of dangerous goods. Through policy and framework development, this program provides oversight of solid waste management practices in Saskatchewan to allow and require the stewards to deliver recycling programs and to ensure the safe collection, recycling and disposal of products otherwise detrimental to the environment, landfill operations and the conservation of non-renewable resources. Through business advisory and technical services, this program is responsible for the long-term strategy for environmental information management and technology services.

Non-Appropriated Expense Adjustment

Objective

Accounts for expenses and expense recoveries that do not require appropriation. Typically these are expenses for which the cash outflow is appropriated in a different fiscal year than the expense or recovery is recorded.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the asset. Amortization is a non-voted, non-cash expense.

Highways (Vote 16)

The Ministry manages and provides for the future development of an integrated sustainable provincial transportation system, which supports economic growth and prosperity for Saskatchewan. Our infrastructure investments will be guided by strategic transportation policy and incorporate operating and maintenance practices which promote the safe and efficient movement of people and goods.

Central Management and Services (Subvote HI01)

Objective

Provides executive direction and centrally-managed services in the areas of finance, geographical information, communications and other operational services that include head office and program-based accommodations required for the delivery of the Ministry's mandate.

Program Delivery

In addition to providing funding to operate the Minister's and Deputy Minister's offices, this program provides the following services: budget preparation, revenue and expenditure processing and accounting, financial management advice, strategic planning, business improvement, internal audit, geographical information services, the customer service centre, records and information management as well as mail, archiving and accommodation funding.

This program area also delivers strategic communications planning for the Ministry including developing internal and external communications, providing advice on communications issues, administering the Ministry's media relations, event organization, public education, and social media.

Preservation of Transportation System (Subvote HI04)

Objective

Provides preventative maintenance on provincial highways and bridges. It provides delivery, planning, engineering and management of preservation and capital construction programs.

Program Delivery

Provide the preservation and preventative maintenance work required to protect the public's investment and deliver an appropriate level of service from the transportation network. This is accomplished through the delivery of preservation maintenance activities for multiple types of infrastructure, including pavements, thin membrane surfaces, gravel highways, bridges, and weigh scales, as well as emergency response.

This program also funds the staff required to deliver the engineering and administrative services involved with the delivery of operational and preservation activities and capital projects. This includes managing the equipment fleet and procurement services to deliver in-house preservation and operations activities.

Transportation Planning and Policy (Subvote HI06)

Objective

Provides for strategic transportation planning and policy development. It ensures a modern and competitive regulatory framework for transportation that aligns with Saskatchewan's regulatory modernization initiative. It assesses the efficiency of Saskatchewan's transportation network for the development of transportation plans. It also includes technical advice to shortline railways and regulation of provincial railways.

Program Delivery

Develop strategic transportation policies and planning in consultation with the public and other government organizations. This involves developing and maintaining policies and regulations for highway, rail, aviation and marine infrastructure.

This program area provides advice and prioritization for the delivery of projects and development of long-term multi-modal network planning. This program area is also responsible for intergovernmental relations, including working with municipal jurisdictions for road-use planning, federal funding and regulation change initiatives, managing third party programs and national trade and transportation discussion representation and research.

Infrastructure and Equipment Capital (Subvote HI08)

Objective

Provides for the structural restoration, rehabilitation and new construction of paved highways, bridges and other transportation infrastructure capital by utilizing in-house and contracted resources. It also provides for major capital accommodation improvements, machinery and equipment, and minor capital.

Program Delivery

Deliver capital infrastructure improvements to enhance the provincial transportation system. This involves the project management and delivery of enhancements and rehabilitation to the transportation network. It includes capital highway preservation and repaving, highway surface upgrades and road expansion initiatives, including twinning, passing lanes and interchanges. This program also delivers bridge and culvert replacements, capital safety improvements, ferry and airport improvements and the acquisition of machinery and equipment used for maintaining and operating the provincial highway system. This subvote also provides for minor capital including salt facilities, intelligent transportation assets and the ministry's asset retirement obligations.

Custom Work Activity (Subvote HI09)

Objective

Provides for custom work activities performed by the Ministry for municipalities, Crown corporations and other organizations on a full cost-recovery basis.

Program Delivery

Provide for custom work activities.

Operation of Transportation System (Subvote HI10)

Objective

Provides for the safe access and operation of the transportation system through the delivery of a range of operational and maintenance services including pavement marking, signing, lighting, mowing, snow and ice control, ferry and provincial airport operations, information technology management and systems support, project support and land management. It also provides related operational services oversight such as technical standards, regulation development and traffic engineering.

Program Delivery

Provide safe access and an appropriate level of service for the transportation network. This is delivered through many activities, including winter snow and ice control, ferry maintenance and services, airport maintenance and services, and traffic safety and guidance operations, including pavement marking, signing, mowing, lighting, railroad crossing maintenance, and maintaining the right of way.

This program provides operational services, including standards development and maintenance, traffic data collection, trucking program and regulation administration, land management, employee and public safety initiatives, engineering studies, area office management, highway hotline and the operation and maintenance and financing charges of the Regina Bypass. It also funds the information technology services provided by the Ministry of SaskBuilds and Procurement and the remediation of contaminated sites.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the assets with the exception of heavy equipment which is based on usage. Changes in valuation or loss on disposition of assets are also treated as amortization. Amortization is a non-voted, non-cash expense.

Strategic Municipal Infrastructure (Subvote HI15)

Objective

Provides for partnership project initiatives that facilitate traffic management on the provincial transportation system. It also provides for strategic investments in municipal infrastructure, air services including community airports, and shortline railway programs.

Program Delivery

Provide the funding for the delivery of third-party infrastructure programs, including the Rural Integrated Roads for Growth Program, the Urban Highway Connector Program, the Community Airports Partnership Program, the Shortline Rail Improvement Program, and the Strategic Partnership Program.

Non-Appropriated Expense Adjustment

Objective

Accounts for expenses and expense recoveries that do not require appropriation. Typically these are expenses for which the cash outflow is appropriated in a different fiscal year than the expense or recovery is recorded.

Immigration and Career Training (Vote 89)

The Ministry of Immigration and Career Training helps individuals prepare for, obtain and maintain employment, and leads activities required to assist employers with the development, recruitment and retention of workers. The Ministry's key tasks involve delivering services and programs that address labour demand and undertaking activities to fully engage Saskatchewan's labour supply.

Central Management and Services (Subvote IC01)

Objective

Provides executive direction and centrally-managed services in the areas of finance, information technology, information management, internal audit, legislation, privacy, contract services, accommodations, strategic planning and policy, and other operational services for the delivery of the Ministry's mandate. It provides services to improve labour mobility and fair registration practices. It provides funding for marketing and communications services that are received through a shared-services memorandum of understanding with the Ministry of Trade and Export Development. It also includes the provision of services to the Ministry of Energy and Resources and the Ministry of Trade and Export Development through a shared-services memorandum of understanding.

Program Delivery

This program provides coordination and liaison support with various government ministries and agencies in delivering the processes that support the Ministry's mandate and strategic priorities. Services are provided in the areas of finance, administration, information technology, internal audit, coordination of information and privacy policies and responses, and strategic planning and policy. With the exception of strategic planning and policy, these services are also provided to Energy and Resources and Trade and Export Development through a shared service memorandum of understanding. The program also oversees the management of the Modernization of Agreements, Programs and Services (MAPS) renewal project.

Immigration, Employment and Career Development (Subvote IC02)

Objective

Supports employment and career growth for Saskatchewan residents, as well as the attraction and settlement of newcomers into the social and economic life of the province. It helps individuals launch and build a career in Saskatchewan.

Program Delivery

The Immigration, Employment and Career Development Division helps people prepare for, obtain and maintain employment. It develops the labour supply and ensures Saskatchewan residents have access to the employment and career development supports they need through the direct delivery of services across the province and through outcomes-based contract management with community-based organizations, institutions and other agencies. To attract internationally skilled workers, the division administers the Saskatchewan Immigrant Nominee Program (SINP) who will address gaps in the labour market. It also manages negotiations to advance Saskatchewan's interests with the federal government.

Training and Employer Services (Subvote IC03)

Objective

Develops training and other workforce solutions to develop, recruit, and retain a skilled and diverse workforce. It helps Saskatchewan employers navigate their labour market options, and provides strategic direction, oversight and investment to align the provincial training system with labour market needs.

Program Delivery

The Training and Employer Services Division provides financial and program support to training institutions, agencies and industry to develop, recruit and retain a skilled and diverse workforce. The division supports the development, delivery and evaluation of training programs such as Adult Basic Education, skills training, and apprenticeship as well as providing income support for eligible participants in these programs. To inform planning and decision making, the division also provides labour market information to government, employers, educators and job seekers and works directly with employers to help them navigate and benefit from various labour market supports.

Labour Market Programs (Subvote IC04)

Objective

Provides program investments designed to address labour market needs of the provincial workforce and employers, and the economic priorities of the Government of Saskatchewan.

Program Delivery

This program supports investments in people, programs and services that build the workforce. It provides financial and program support to institutions, agencies and industry to help people prepare for, obtain and maintain employment. Funding supports the development, delivery and evaluation of programs such as Adult Basic Education, skills training, and apprenticeship training, work readiness programs and services that transition job seekers into jobs as well as providing income support for eligible participants in these programs. Partnerships with third party service providers ensure the availability of a range of services for specialized needs such as career planning, referrals to employment/training programs, employment supports and work placement opportunities. This program also includes settlement services, English language training for newcomers, foreign credential recognition and work experience for internationally training individuals.

Non-Appropriated Expense Adjustment

Objective

Accounts for expenses and expense recoveries that do not require appropriation. Typically these are expenses for which the cash outflow is appropriated in a different fiscal year than the expense or recovery is recorded.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the asset. Amortization is a non-voted, non-cash expense.

Labour Relations and Workplace Safety (Vote 20)

The Ministry of Labour Relations and Workplace Safety promotes, supports and enforces safe work practices and employment standards. It fosters a fair and balanced employment environment that respects the rights, duties and responsibilities of employees and employers thereby ensuring healthy, safe and productive workplaces.

Central Management and Services (Subvote LR01)

Objective

Provides executive direction and centrally-managed services in the areas of finance, information management, policy and planning, communications and other operational services including accommodations required for the delivery of the Ministry's mandate.

Program Delivery

This program provides financial management and administrative support to the Ministry in the centrally administered functions of accounting, budgeting, policy, planning and evaluation, communications, and executive management. It also provides payments to the Ministry of SaskBuilds and Procurement for services rendered.

Occupational Health and Safety (Subvote LR02)

Objective

Promotes safe and healthy workplaces through education, training, inspections, incident investigations and enforcement of workplace safety standards.

Program Delivery

Design and execute programs and activities that promote hazard identification, risk assessment and safe work practices to reduce the provincial injury rate. This is accomplished by using an integrated compliance and enforcement model, which in partnership with the Workers' Compensation Board as WorkSafe Saskatchewan, seeks to improve occupational health and safety awareness and culture in Saskatchewan workplaces and communities. The OHS Branch investigates reported incidents, inspects workplaces and encourages the adoption of safety best practices and full compliance with the occupational health and safety legislation and regulations.

Employment Standards (Subvote LR03)

Objective

Establishes minimum standards of employment through the enforcement of legislation related to hours of work; overtime; minimum wage; annual holidays; termination or layoffs; leaves of absence including compassionate care, maternity, paternity and bereavement; and equal pay provisions. It also delivers outreach programs to workers and employers on rights and responsibilities related to employment standards, and operates the Ministry's client service desk.

Program Delivery

Employment Standards staff, located in eight district offices, are involved in both the promotion of and compliance with the Province's minimum employment standards. The promotional activities include the Branch's educational initiatives and the operation of an inquiry line to respond to both employers' and employees' questions on matters related to employment standards. The Ministry fosters and supports a competitive business environment, facilitates trade and strengthens Saskatchewan's international relations.

Various central service functions are delivered through a shared-services arrangement with the Ministry of Energy and Resources, and the Ministry of Immigration and Career Training.

Program Delivery

This program provides coordination and liaison support with various government agencies in delivering the processes that support the Ministry's mandate. Support is provided in the areas of marketing and communications for the Ministry and to other Ministries through a shared service arrangement. It also provides funding for accommodations, operations, and information technology.

Strategic Policy and Competitiveness (Subvote TE02)

Objective

Works with internal and external partners to advance Saskatchewan's economic competitiveness. This includes working to secure market access for Saskatchewan exports, improving the regulatory environment, ensuring the policy environment is conducive to growth and delivering effective tax incentive programs.

Program Delivery

There are four discrete program areas within this subvote: trade policy, regulatory modernization, financial programs, and strategic policy and planning. Together these areas are tasked with working across government and with stakeholders to ensure Saskatchewan is the best place to do business.

Economic Development (Subvote TE03)

Objective

Facilitates growth and investment in key economic sectors. Works with companies to attract investment to Saskatchewan. Connects First Nations, Métis and northern stakeholders to business opportunities. Provides loan guarantees to Indigenous communities and organizations for investments in natural resource and value-added agriculture projects through the Saskatchewan Indigenous Investment Finance Corporation.

opportunities through systematic outreach and engagement.

International Engagement (Subvote TE04)

Objective

Advances Saskatchewan's international engagement by administering Saskatchewan's International Trade and Investment Office network, leading strategic international engagement initiatives and working in collaboration with partners, including the Saskatchewan Trade and Export Partnership to deliver programs and services to facilitate economic growth.
