

Backgrounder

Improved water infrastructure is coming to nine Saskatchewan communities

Joint funding through the Green Infrastructure Stream of the Investing in Canada Infrastructure Program will support nine infrastructure projects across Saskatchewan.

The Government of Canada is investing more than \$3.8 million towards these projects and the Government of Saskatchewan is contributing over \$3.1 million. Recipients are contributing more than \$2.5 million and are responsible for any additional costs.

Location	Project Name	Project Details	Federal Funding	Provincial Funding	Recipient Funding
Village of Denzil	Village of Denzil - Water Treatment Plant Upgrades and Sewer System Renewal	Improving and upgrading the disinfection of potable water and renewing the sanitary collection system to mitigate service failures and sewage backups.	\$539,680	\$449,688	\$359,832
Village of Dodsland	Village of Dodsland - Water Treatment Plant Ultraviolet (UV) Disinfection Systems Upgrade	Installing five ultraviolet (UV) filters, a carbon filter and a remote monitoring system to improve water treatment process.	\$53,095	\$44,242	\$35,401
Town of Fort Qu'Appelle	Town of Fort Qu'Appelle - Water Treatment Plant Improvements	Upgrading the more than 32-year-old water treatment plant by replacing electrical and control systems, installing a new backup generator and associated works.	\$958,000	\$798,254	\$638,746
Village of Harris	Village of Harris - Bio-Filter Treatment Water Plant Upgrade	Installing a new filtering system to improve water quality and upgrading the facility to	\$341,720	\$284,738	\$227,842

		accommodate related equipment.			
Town of Leader	Town of Leader - Potable Water Storage Tank Replacement	Construction of a new above-ground potable water storage tank, piping to connect the existing water treatment plant to the new tank, electrical and control improvements, and associated works.	\$766,640	\$638,803	\$511,157
Village of Neudorf	Village of Neudorf - Waterline Replacement	Removing cast iron pipes and installing replacement plastic pipes.	\$190,200	\$158,484	\$126,816
Village of Paradise Hill	Village of Paradise Hill - Water Treatment Biological Upgrade	Installing biological pre-treatment filters to replace the existing chemical treatment process of water.	\$424,800	\$353,965	\$283,235
Town of Shaunavon	Town of Shaunavon - 2023 Ultraviolet (UV) Disinfection Upgrades Project	Upgrading two existing drinking water wells by installing new ultraviolet (UV) vessels with an operation control panel and replacing two existing well buildings, new well pumps and related works.	\$458,534	\$382,074	\$305,727
Village of Zenon Park	Village of Zenon Park - Water Storage Rehabilitation Project	Rehabilitating the existing water tower and replacing the de-icing circulation system, pressure gauge float, and associated works.	\$80,800	\$67,327	\$53,873
Total:			\$3,813,469	\$3,177,575	\$2,542,629
