Introduction to the Public Accounts

The 2015-16 Public Accounts of the Government of Saskatchewan (the Government) are prepared in accordance with the *Financial Administration Act, 1993* and consist of two volumes. The Government is responsible for the integrity and objectivity of the information presented in these two volumes.

Volume 1

Financial Statement Discussion and Analysis provides users of the Government's Summary Financial Statements (SFS) with an overview of the Government's performance by presenting comparative financial highlights and variance analysis. The information in the financial statement discussion and analysis should be read in conjunction with the SFS.

Summary Financial Statements provide an accounting of the full nature and extent of the financial affairs and resources of the Government. This includes the financial results of the General Revenue Fund (GRF), Crown corporations, boards and other organizations controlled by the Government. A listing of all organizations controlled by the Government, collectively referred to as the government reporting entity, is provided in schedule 18 of the SFS.

Volume 2

Volume 2 contains the following unaudited financial information:

General Revenue Fund

- revenue and expense schedules and details;
- capital asset acquisitions schedule and details;

Revolving Funds

- expense details;

Supplier Summary

- listing of suppliers who received \$50,000 or more for goods and services and capital assets supplied to the GRF and Revolving Funds during the fiscal year;

Other Information

- Growth and Financial Security Fund transfers and accumulated balance;
- Debt Retirement Fund accumulated balance;
- assets, liabilities and residual balances of pension plans and trust funds administered by the Government;
- remissions of taxes and fees; and
- road-use fuel tax accountability revenues and expenditures.

The Public Accounts are available on the Internet at <http://www.finance.gov.sk.ca/public-accounts/>.

A Compendium is also available on the Internet at <http://www.finance.gov.sk.ca/public-accounts/> that contains the financial statements of various government agencies, boards, commissions, pension plans, special purpose funds and institutions, as well as Crown corporations which are accountable to Treasury Board. In addition, the financial statements of Crown corporations and wholly-owned subsidiaries that are accountable to the Crown Investments Corporation of Saskatchewan Board can be found, through links, on the Internet at <http://www.cicorp.sk.ca/>.

Guide to Volume 2

Volume 2 is prepared to enhance accountability by providing unaudited financial information for the General Revenue Fund.

The General Revenue Fund is comprised of all Ministries of the Government. This is the fund into which all revenues are paid, unless otherwise provided for by legislation, and from which all expenses are appropriated by the Legislative Assembly.

Some schedules provide a comparison of appropriations to expenditures by program. Expenditure is calculated from total expense, adjusting for capital asset acquisitions, amortization and other changes in non-financial assets, including prepaid expenses.

Details of Expense

Information on the details of expense includes:

Mandates – a description of the mandates and major program areas.

Expense summary – a matrix showing the expense amount for each program, grouped into major expense categories.

Payee amounts – a listing for each major category of expense, as described below.

The expense categories are:

- **Salaries and Benefits**

This category includes salaries, wages, honorariums and compensation paid to employees and others who provided personal services, and pension and public sector benefit expenses. Payees who received \$50,000 or more are listed. Allowances for members with additional duties are also listed.

- **Transfers**

Transfers are listed by program for recipients who received \$50,000 or more. Details are not provided for high volume programs of a universal nature or income security and other programs of a confidential and personal nature. Total by recipient includes:

Capital Transfers

Transfers provided to a third party such as a school board, regional health authority, university or municipality to acquire or develop capital assets.

Operating Transfers

Transfers to or on behalf of individuals, local authorities and other third parties, for which the government does not receive any goods or services directly in return.

- **Goods and Services**

Expenses for goods and services include travel expenses incurred by employees, members of the Legislative Assembly, and others who provided personal services; contract services; and communications expense for promotion of programs and for non-promotional expense, including exhibits, displays, and the printing of educational and informational material. Amounts for Ministers' travel expense and for suppliers who received \$50,000 or more for goods and services are listed.

- **Capital Asset Amortization**

The cost of tangible capital assets allocated to expense over their useful life.

- **Other Expenses**

Expenses which do not fit in any of the above categories. Payees who received \$50,000 or more are listed.

- **Internal Recoveries**

Recoveries for the provision of shared services of \$50,000 or more are listed.

Additional information is reported for two ministries:

- Highways and Infrastructure – a report on major preservation expense and infrastructure capital by highway.
- Legislative Assembly – schedules of payments to Members of the Legislative Assembly for serving on committees and boards as well as for their indemnities, allowances and expenses as members.

Capital Asset Acquisitions

A schedule provides capital asset acquisitions by class. Capital asset classes include land, buildings and improvements, machinery and equipment, transportation equipment, office and information technology and infrastructure.

Payees who received \$50,000 or more for the provision of capital assets are listed. Internal recoveries of \$50,000 or more are also listed.

Revolving Funds Details of Expense

Payees and suppliers who received \$50,000 or more from Revolving Funds are listed. Expense categories and amounts listed are the same as for the General Revenue Fund.

Supplier Summary

Suppliers who received \$50,000 or more for goods and services and capital assets supplied to the General Revenue Fund and Revolving Funds during the fiscal year are listed. These amounts are classified as goods and services and capital asset acquisitions in Volume 2.

Remission of Taxes and Fees

Individuals or companies who were granted remissions of taxes or fees are listed in the Statement of Remission of Taxes and Fees. A remission is a return of or an exemption from liability to pay a tax, royalty, rental or fee payable to the Crown. Section 24 of *The Financial Administration Act*, 1993 provides that the Lieutenant Governor in Council may grant remissions where he/she considers it to be in the public interest or that great hardship or injustice to persons would otherwise occur. The Act permits the Minister of Finance to grant remissions where the amount is not greater than \$1,000.

Economy (Vote 023)

The Ministry of the Economy works to advance economic growth and generate wealth and opportunity in Saskatchewan by aligning government's primary economic, resource and labour market development programs. Economy is also responsible for immigration, northern development and includes funding for Tourism Saskatchewan. Economy's core lines of business are to enhance economic growth and competitiveness; to advance and regulate responsible resource development; and to develop, attract and retain a skilled workforce.

Central Management and Services (Subvote EC01)

Objective

To provide executive direction and centrally-managed services in the areas of finance, information management, communications and other operational services that include head office and program-based accommodations and capital improvements required for the delivery of the Ministry's mandate. It oversees process review, including the Process Renewal and Infrastructure Management (PRIME) Program, to modernize and transform the Government's oil and gas industry as well as the management of the Integrated Resource Information System (IRIS). It also supports the Surface Rights Arbitration Board.

Program Delivery

This program provides coordination and liaison support with various government agencies in delivering the processes that support the Ministry's mandate. Support is provided in the areas of communications, finance, administration, and information technology services.

Minerals, Lands and Resource Policy (Subvote EC06)

Objective

To conduct economic research and identify, analyze and develop policies to encourage economic growth, and promote energy conservation and resource development. It designs and maintains tax structures for oil and natural gas, industrial and metallic minerals and coal to optimize revenues and ensure industry competitiveness. It works in partnership with business, communities, governments and other provincial agencies to develop and deliver policies and programs to enhance forest industry competitiveness and development. It also implements the mineral provisions of Treaty Land Entitlement and other Aboriginal land agreements and provides land policy support to provincial initiatives affecting mineral lands of the province.

Program Delivery

This program administers the Crown's mineral rights for commodities such as oil, natural gas, gold, base metals, uranium, potash and diamonds and collects, processes and stores information related to mineral and oil and gas exploration and development. It provides policy direction on energy and mineral pricing, taxation and tax incentives, issues related to energy development and conservation and advice on inter-provincial and federal-provincial initiatives and issues that may affect the non-renewable resource producing sectors of the provincial economy. It also performs geological and mineralogical studies; maintains geoscientific databases, promotes resource development through publications, meetings, displays and individual consultations; and assesses petroleum and mineral exploration results.

Petroleum and Natural Gas (Subvote EC05)

Objective

To regulate the fair and orderly development of Saskatchewan's oil and gas resources in a manner that protects the environment and ensures public safety.

Program Delivery

This program, which is largely funded through the annual assessment of the Well Levy, is responsible for the licensing of all wells, facilities and provincial pipelines in Saskatchewan. Activities associated with the delivery of the program include the management of oil and gas reservoirs, the prevention of waste, the establishment of operating standards, the enforcement of regulatory requirements, and the collection and dissemination of information related to exploration, production and sales. In support of these activities, this program is also responsible for managing the long-term liability associated with oil and gas wells and facilities including administering the Orphan Well Fund.

Revenue and Corporate Services (Subvote EC04)

Objective

To invoice, assess, collect and audit resource revenues, mineral rights taxes and various Ministry programs. It also works with federal and other governments on policy and program issues as well as provides leadership and support in the areas of information and privacy, and internal audit.

Program Delivery

This program initiates invoicing for oil and gas royalties; implements and maintains appropriate collection and auditing programs for Saskatchewan's non-renewable resource industry, labour market programs and business programs of the Ministry. It is responsible for the internal audit function for the Ministry and for coordinating information and privacy policies and responses. In addition, it administers incentives for investments into the mineral sector, as well as for investments into labour-sponsored venture capital funds that operate in Saskatchewan.

Economic Development (Subvote EC12)

Objective

To facilitate the growth and competitiveness of the mining, energy, manufacturing and life sciences/biomass sectors, including coordinating cross-government work on major economic development projects, investment attraction, and identification of issues and barriers to growth. It also provides support for First Nations, Métis and northern economic development, including facilitating business opportunities for these groups. The division builds strategic relationships with companies and industry associations, and undertakes strategic and aggressive promotional and sales efforts.

Program Delivery

As a key element to the Growth Plan, this program works to increase growth and competitiveness of key economic sectors. The division also co-ordinates cross-government work on major economic development projects and undertakes activities with other partners to attract investment through lead generation, building strategic

relationships with companies and industry associations, aggressive investment promotion and sales effort.

Tourism Saskatchewan (Subvote EC14)

Objective

To provide grant funding to Tourism Saskatchewan.

Program Delivery

Tourism Saskatchewan promotes Saskatchewan as a tourism destination by providing in-province and out-of-province marketing and visitor services. Tourism Saskatchewan assists industry to market and develop quality tourism products through cooperative marketing, education and training and event funding programs.

Labour Market Development (Subvote EC13)

Objective

To foster the development, recruitment and retention of a skilled and diverse workforce to meet the needs of a growing and innovative economy.

Program Delivery

This program supports investments in people, programs and services that build the workforce. It provides financial and program support to institutions, agencies and industry to help people prepare for, obtain and maintain employment. Funding supports the development, delivery and evaluation of programs such as Adult Basic Education, skills training, and apprenticeship training, work readiness programs and services that transition people from Employment Insurance and welfare to jobs as well as providing income support for eligible participants in these programs. Partnerships with third party service providers ensure the availability of a range of services for specialized needs such as career counseling, vocational assessments, employment supports and work placement opportunities. This program also includes the Saskatchewan Immigrant Nominee Program and settlement and integration services for newcomers such as, credential recognition, and language training services for immigrants and refugees.

Performance and Strategic Initiatives (Subvote EC20)

Objective

To advance projects of strategic importance to provincial economic development. It leads the Ministry's efforts in planning and reporting, including regular economic performance updates. The division works to improve Ministry performance through organizational culture and Lean initiatives, and by leading program reviews. It also works across government to modernize regulations that impact businesses. Given the growing influence of the Chinese economy and the strategic nature of commercial relationships with that nation, the division maintains resources dedicated to attracting investment from China.

Program Delivery

The program leads and assists with projects. It provides economic information to policy makers, and it leads and manages strategic planning processes for the Ministry. The program works with other divisions to improve organizational performance, and encourages regulatory best practices across government. It promotes Saskatchewan among investors from the Greater China area.

Objective

To account for expenses and expense recoveries that do not require appropriation.

Finance - Debt Servicing (Vote 12)

This vote enables the Ministry of Finance to discharge its debt obligations by providing for all costs associated with the Province's debt incurred for general government purposes, and by providing for costs associated with a portion of the public debt reimbursable from Crown corporations. These costs include interest, foreign exchange gains and losses, discounts, premiums, fees, commissions and other debt-related costs.

Debt Servicing (Statutory) (Subvote FD01)

Objective

To provide for all costs associated with the Province's debt incurred for general government purposes.

Program Delivery

This program provides funding for interest and other debt-related costs such as discounts, premiums, fees, commissions and gains or losses resulting from a change in the value of the Canadian dollar associated with debt that is denominated in foreign currencies.

Crown Corporation Debt Servicing (Statutory) (Subvote FD02)

Objective

To provide for costs associated with a portion of the public debt reimbursable from Crown corporations.

Program Delivery

This program provides funding for interest and other debt-related amounts on general borrowings advanced or loaned to Crown corporations. These costs are recovered from Crown corporations and shown as interest revenue.

This program excludes costs of debt borrowed specifically on behalf of government business enterprises, such as SaskPower. Such costs are attributed to the applicable government business enterprise rather than the General Revenue Fund.

This program provides for strategic transportation planning and policy development. It ensures a modern and competitive regulatory framework for transportation that aligns with Saskatchewan's regulatory modernization initiative. It assesses the efficiency of Saskatchewan's transportation network for the development of transportation plans. It also includes technical advice to short line railways and regulation of provincial railways.

Custom Work Activity (Subvote HI09)

Objective

To provide for custom work activities.

Program Delivery

This program provides for custom work activities performed by the Ministry for municipalities, Crown corporations and other organizations on a full cost-recovery basis.

Infrastructure and Equipment Capital (Subvote HI08)

Objective

To provide for the structural restoration, rehabilitation and new construction of paved highways, bridges and other transportation infrastructure. It also provides for major capital accommodation improvements, capital acquisition and replacement of machinery and equipment and minor capital.

Program Delivery

This program provides for the delivery of infrastructure capital improvements to improve the provincial transportation system by utilizing in-house and contracted resources. It is also used for the acquisition of machinery and equipment used for maintaining and operating the provincial highway system.

Non-Appropriated Expense Adjustment (Subvote HI14)

Objective

To account for expenses and expense recoveries that do not require appropriation.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the assets with the exception

of heavy equipment which is based on usage. Changes in valuation or loss on disposition of assets are also treated as amortization. Amortization is a non-voted, non-cash expense.

Growth and Financial Security Fund, End of Year	\$ \$	131,269

The Growth and Financial Security Fund (GFSF) was established May 14, 2008, by *The Growth and Financial Security Act*. *The Growth and Financial Security Act* was repealed effective April 1, 2016.

In accordance with *The Growth and Financial Security Act*, the GFSF receives 50 per cent of the pre-transfer surplus of the General Revenue Fund (GRF) in any fiscal year. Transfers first accrue to the security component, as required, to maintain a balance of \$500.0 million, after which additional transfers will accrue to the growth component. This legislation also permits Treasury Board to approve other transfers between the GFSF and the GRF.

Transfers to the GFSF from the GRF are statutory disbursements. Amounts transferred to the GRF from the GFSF are available for use subsequent to receiving required approval from the Legislative Assembly.

In accordance with *The Growth and Financial Security Act*, all earnings on the GFSF's investments are credited to the GRF. For 2015-16, this amount was \$4.1 million (2015 - \$13.7 million).

The GFSF's assets have been invested in fixed income securities as follows:

	<u>2016</u>	<u>2015</u>
Long-term investments in securities of:		
Government of Canada.....	\$ \$	6,492

Cash, accounts receivable, short-term investments and accrued interest (1).....	15,551
