Minister of Finance

SASKATCHEWAN BUDGET UPDATE

17-18

MEETING THE
CHALLENGE

THIRD QUARTER
FINANCIAL REPORT

2017-18 Third Quarter Financial Report
Government of Saskatchewan
March 2, 2018

INTRODUCTION

2017-18 Third Quarter Financial Report

At third quarter, expectations of the province's 2017 economic performance and 2017-18 financial position remain consistent with mid-year projections.

The Saskatchewan economy performed well in 2017 and remains on track to post positive growth for the first time in two years.

In 2017, total employment was down and crop production was affected by hot and dry weather. Nonetheless, most 2017 key indicators have been positive.

Manufacturing sales and building permits have posted double-digit growth while there have been substantial increases in exports, sales of new vehicles, wholesale trade and retail sales.

And, the outlook for 2018 remains positive.

Private sector forecasters, on average, are projecting Saskatchewan real GDP growth of 2.0 per cent in 2017 and 2.1 per cent in 2018.

To facilitate comparison between the published third quarter forecast and actual financial results for 2017-18, the third quarter financial update is presented on the same basis as the Public Accounts. That is, expense and deficit forecasts include pension costs on an accrual basis.

At third quarter, revenue is down a further \$168.9 million from the mid-year projection, reflecting a further decline in taxation revenue and reduced federal transfers, partially offset by increases in GBE net income, non-renewable resource revenue and other own sources.

Expense, including the previously excluded adjustment to account for pensions on an accrual basis, is down \$155.3 million from the mid-year projection, largely reflecting a further reduction in Crop Insurance payouts.

As a result, a deficit of \$595.0 million is now forecast for 2017-18. This is a \$13.6 million deterioration from the adjusted mid-year projection, but a \$101.0 million improvement from budget.

A complete reconciliation of the adjustments to the budget and mid-year projections is included in Appendix A.

ECONOMIC UPDATE

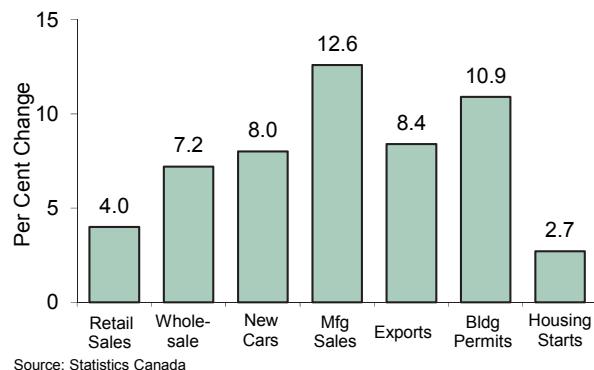

2017 Performance

Following two consecutive years of negative growth due to low commodity prices and modest global growth, the Saskatchewan economy is expected to post positive growth in 2017.

Although total employment was down slightly and crop production was affected by hot and dry weather conditions, many other indicators were positive.

- Manufacturing sales grew by 12.6 per cent, the fourth-highest percentage increase among provinces.
- Sales of new motor vehicles were up by 8.0 per cent, also the fourth-highest percentage increase among provinces.

KEY ECONOMIC INDICATORS (2017 over 2016)

- In addition, the value of building permits, international goods exports, wholesale and retail trade were up substantially in 2017, as were oil and potash production.

SASKATCHEWAN ECONOMIC INDICATORS

Source: Statistics Canada

Saskatchewan's population continues to grow. Between October 1, 2016 and October 1, 2017, Saskatchewan's population increased by 14,467 persons. It was estimated to be 1,168,057 as of October 1, 2017, according to Statistics Canada.

For 2018, the outlook remains positive.

The most recent employment figures released by Statistics Canada showed Saskatchewan employment up by 1,500 in January 2018 over January 2017.

Private sector forecasters, on average, expect Saskatchewan real GDP to grow by 2.0 per cent in 2017 and 2.1 per cent in 2018.

2017-18 BUDGET UPDATE

Third Quarter

OVERVIEW

The third quarter financial update is presented on the same basis as the Public Accounts as it applies to pension expense.

Pension costs on an accrual basis are included in expense and deficit calculations in the third quarter update.

This change is being made to facilitate an easier comparison between in-year forecasts and actual financial results that will be published in the Public Accounts after the close of the fiscal year.

The previously published budget and mid-year figures, which excluded the pension adjustment from expense and deficit calculations, have been restated to include full pension expense. A complete reconciliation is provided in Appendix A.

ADJUSTED BUDGET AND MID-YEAR DEFICIT

(Millions of Dollars)	Budget	Mid-Year Projection
Deficit, as originally published	(684.7)	(679.0)
Pension Adjustment	(11.3)	97.6
Deficit, adjusted	(696.0)	(581.4)

At third quarter, total revenue is forecast to decrease \$168.9 million from the mid-year projection.

Total expense, including the adjustment to account for pensions on an accrual basis, is forecast to decline by \$155.3 million relative to the mid-year projection.

2017-18 DEFICIT RECONCILIATION

(Millions of Dollars)

2017-18 Adjusted Mid-Year Projection	(581.4)
Forecast Changes from Mid-Year:	
Total Revenue	(168.9)
Total Expense ¹	(155.3)
Total Forecast Changes from Mid-Year	(13.6)
2017-18 Third Quarter Deficit Forecast	(595.0)

¹ including full pension expense

As a result of these forecast changes, a deficit of \$595.0 million is now forecast for 2017-18. This is a \$13.6 million deterioration from mid-year, but a \$101.0 million improvement from budget.

REVENUE UPDATE

At third quarter, revenue is forecast to decrease \$168.9 million from the mid-year projection, for a total decrease of \$222.1 million from budget.

The change from the mid-year projection reflects a further decline in taxation revenue and reduced federal transfers, partially offset by increases in GBE net income, non-renewable resource revenue and other own sources.

Significant changes from mid-year are described below.

2017-18 REVENUE RECONCILIATION

(Millions of Dollars)

2017-18 Mid-Year Projection	14,111.9
Forecast Changes from Mid-Year:	
Taxation	(309.3)
Non-Renewable Resources	37.4
Other Own-Source	70.6
Federal Transfers	(59.6)
GBE Net Income	92.0
Total Change from Mid-Year	(168.9)
2017-18 Third Quarter Forecast	13,943.0

Taxation revenue is forecast to decrease \$309.3 million from mid-year, for a total reduction of \$490.3 million from budget.

Individual Income Tax and Corporation Income Tax are forecast to decrease an additional \$118.8 million and \$100.2 million from mid-year, respectively. The decline reflects further weakness in personal and corporate tax assessments

for the 2016 tax year, as well as a decline in the federal forecast of the national corporate income tax base.

The Provincial Sales Tax (PST) forecast has been reduced by \$65.0 million as a result of the elimination of the PST on agricultural, health and life insurance premiums.

Tobacco Tax revenue is now forecast to decrease \$20.0 million, reflecting lower-than-budgeted revenue through the first three quarters of the fiscal year.

Non-renewable resources revenue is forecast to increase \$37.4 million from mid-year, for a total increase of \$13.3 million from budget.

Oil and natural gas revenue is forecast to increase \$42.1 million, nearly reversing the decline reported at mid-year.

West Texas Intermediate (WTI) oil prices strengthened over the third quarter, and prices are now forecast to average US\$52.60 in 2017-18, up from US\$50.25 at mid-year.

The value of the Canadian dollar is now expected to average 77.82 U.S. cents in 2017-18, down slightly from the mid-year assumption of 78.05 U.S. cents.

These increases have been partially offset by a wider light-heavy differential in recent months. Nonetheless, well-head oil prices in Canadian dollars are forecast at \$51.62 at third quarter, an increase of \$2.76 since mid-year.

2017-18 NON-RENEWABLE RESOURCES FORECAST ASSUMPTIONS

	Budget	Mid-Year Projection	Third Quarter Forecast	Third Quarter Change from	
				Budget	Mid-Year
WTI Oil Price (US\$/barrel)	56.25	50.25	52.60	(3.65)	2.35
Light-Heavy Differential (% of WTI)	19.5	15.7	17.3	(2.2)	1.6
Well-head Oil Price (C\$/barrel) ¹	55.30	48.86	51.62	(3.68)	2.76
Oil Production (million barrels)	163.8	180.7	177.0	13.2	(3.7)
Potash Price (mine netback, US\$/KCl tonne) ²	176	185	183	7	(2)
Potash Price (mine netback, C\$/K ₂ O tonne) ²	386	388	388	2	-
Potash Sales (million K ₂ O tonnes) ²	11.8	11.8	12.2	0.4	0.4
Uranium Price (C\$/Kg) ²	124	108	104	(20)	(4)
Canadian Dollar (US cents)	74.95	78.05	77.82	2.87	(0.23)

¹ The average price per barrel of Saskatchewan light, medium and heavy oil.

² Ministry of Finance calculations derived from calendar-year forecasts.

Potash royalties are forecast to increase \$21.8 million from mid-year, primarily due to lower industry operating costs and capital spending deductions that result in higher royalties payable. The potash price forecast is virtually unchanged from mid-year at US\$183 per KCl tonne (C\$388 per K₂O tonne).

Other non-renewable resources revenue is forecast to decrease \$14.9 million from mid-year, largely due to lower uranium sales, while Crown land sales finished the fiscal year \$11.6 million lower than forecast at mid-year.

Other own-source revenue is forecast to increase \$70.6 million from mid-year, for a total increase of \$133.3 million from budget.

Fee revenue is up \$40.5 million from mid-year, largely reflecting increases in forestry fee revenue and agricultural land lease revenue in the General Revenue Fund (GRF), as well as small increases at

the Saskatchewan Health Authority and the Boards of Education.

Miscellaneous revenue is up \$32.7 million from mid-year, primarily due to higher refunds of prior-year expenses.

Transfers from the federal government are forecast to decrease \$59.6 million from mid-year, for a total decrease of \$11.2 million from budget. The decline is largely due to lower federal contributions for AgriStability due to a lower indemnity forecast and lower infrastructure funding due to changes in project timelines.

Government Business Enterprise (GBE) net income is forecast to increase \$92.0 million from mid-year, for a total increase of \$132.8 million from budget.

Workers' Compensation Board net income is forecast to increase \$86.5 million from mid-year due to higher investment returns and lower claims costs.

Saskatchewan Auto Fund net income is forecast to increase \$36.7 million from mid-year mainly due to higher investment earnings, partially offset by increased claims.

SaskEnergy net income is forecast to increase by \$19.4 million, primarily due to higher natural gas sales.

Saskatchewan Liquor and Gaming Authority net income is forecast to decrease \$41.7 million as a result of lower VLT activity and liquor sales.

SaskPower net income is forecast to decline by \$6.1 million mainly due to lower electricity sales and the approval of a lower-than-forecast rate increase.

All other GBE net income is forecast to decrease by a combined total of \$2.8 million.

EXPENSE UPDATE

The third quarter expense forecast includes the full cost of pensions – the previously excluded adjustment to account for pension costs on an accrual basis is now included in expense. Budget and mid-year expense have been restated, impacting Education, Debt Charges and Other expense. A complete reconciliation can be found in Appendix A.

At third quarter, expense is forecast to decrease \$155.3 million from the mid-year projection, for a total decrease of \$273.1 million from budget.

Significant changes from mid-year are described below.

2017-18 EXPENSE RECONCILIATION	
(Millions of Dollars)	
2017-18 Adjusted Mid-Year Projection	14,693.3
Forecast Changes from Mid-Year:	
Agriculture	(164.2)
Community Development	(38.5)
Education	(18.9)
Debt Charges	(9.0)
Economic Development	(7.6)
Health	66.1
Protection of Persons and Property	26.6
All other expense themes	(9.8)
Total Change from Mid-Year	(155.3)
2017-18 Third Quarter Forecast	14,538.0

Agriculture expense is forecast to be down \$164.2 million from mid-year primarily due to further reductions in Crop Insurance indemnities, as well as lower AgriStability indemnities.

Community Development expense is forecast to be down \$38.5 million from mid-year, largely due to reduced municipal infrastructure costs related to changes and delays in project timelines.

Education expense is forecast to be down \$18.9 million from mid-year, primarily due to lower requirements for teachers' pensions and benefits, partially offset by \$7.5 million of new funding for school divisions to deal with front-line pressures.

Debt Charges expense is forecast to be down \$9.0 million from mid-year as a result of lower-than-budgeted interest rates on long-term borrowing.

Economic Development expense is forecast to be down \$7.6 million from mid-year, primarily as a result of operational savings at the former Ministry of the Economy and lower activity at the Saskatchewan Research Council.

Health expense is forecast to be up \$66.1 million from mid-year, largely due to utilization pressures at the Saskatchewan Health Authority (previously the Regional Health Authorities).

Protection of Persons and Property expense is forecast to be up \$26.6 million from mid-year due to higher court system utilization and Provincial Disaster Assistance Program claims.

All other expense themes are forecast to be down a combined \$9.8 million from mid-year, reflecting minor net savings.

DEBT UPDATE

The Province's debt consists of:

- Government Service Organization Debt – all debt of government entities other than government business enterprises; and,
- Government Business Enterprise Debt – amounts borrowed by self-sufficient government organizations.

Government business enterprises have the financial and operating authority to sell goods and services to individuals and organizations outside government as their principal activity.

Amounts borrowed by these entities are classified separately because they are expected to be repaid from cash flows generated by these business enterprises.

In other words, this debt has been incurred to finance the business activities of Crown corporations, and it is supported by revenue from those Crown business activities.

Public debt is comprised of:

- Gross Debt – the amount of money owed to lenders; less,
- Sinking Funds – the amount of money which has been set aside for the repayment of debt.

Public debt at March 31, 2018 is forecast to be \$448.2 million lower than budgeted, primarily due to decreased debt for government business enterprises.

¹ General Revenue Fund - Saskatchewan Builds Capital Plan consists of amounts borrowed by the General Revenue Fund to finance investment in infrastructure assets.

² GBE debt includes both general debt and GBE-specific debt. General debt of GBEs is the amount transferred from the General Revenue Fund to a GBE and recorded as a loan receivable in the Summary Financial Statements. GBE-specific debt is debt issued by, or specifically on behalf of, GBEs. GBE-specific debt is included in "Investment in government business enterprises" in the Summary Financial Statements.

³ Public debt is shown net of sinking funds. Debt repayable in foreign currency is restated in equivalent Canadian dollars.
